### **Gold alloy analysers from Quantum**

*Thiruvananthapuram, Aug. 12*

**Q**uantum Equipment has launched 'Karatmeter ORA,' a new range of compact gold alloy analysers. It has been optimised with various types of detectors, a spokesperson for the company said here. Karatmeter is a tool for fast, accurate and non-destructive karat measurement of precious metals and finished jewellery. The ORA series has been designed considering the needs of the jewellery trade in the State. The range is crafted for fast, easy and precise analysis of all metals for gold, silver, platinum and other precious alloys. Quantum is present in the jewellery sector with X-ray fluorescence and laser technology. - **Our Bureau**
