

Quantum launches new gold analysers

Our Bureau

Mumbai, Aug. 9

Quantum Equipment has launched a three new range of compact gold alloy analysers "Karatmeter Ora".

The company has tied up with German-based Bruker Nano GmbH, a 50-year-old scientific instrumentation firm for micro and nano-scale analysis.

Karameter comes in three versions including Jewel for jewellery chain showrooms and gold loan banks, Assay for assaying and hallmarking centres and Super with high resolution Silicon Drift Detector (SDD) for refiners, laboratories and all metals analysis.

Karatmeter Ora series is crafted for fast, easy and precise analysis of all metals for gold, silver, platinum and other precious alloys.
